

Guide to Setting Up Text Message Alerts

SETTING UP TEXT MESSAGE ALERTS

Step 1: To update your notification preferences, log in to your online account, select the Message Center tab and click “Update Notification Preferences.”

Step 2: On the following screen enter your contact information and select which messages you would like to receive under the “Statements & Notifications Options” section.

A screenshot of the "Message Center / Update Notification Preferences" form. The form is divided into two main sections: "Contact Information" and "Notification Preferences".
Contact Information: This section includes fields for "Mobile Number" (with a placeholder "(000) 000-0000") and "Email Address" (with a placeholder "JOHNSMITH@EMAIL.COM"). There is an "Update Contact Information" link on the right.
Notification Preferences: This section contains a paragraph of text explaining text alerts and a checkbox labeled "I would like to Go Paperless:" which is checked.
STATEMENT PREFERENCES: This section has two columns: "STATEMENT PREFERENCES" and "ALERT PREFERENCES". Under "STATEMENT PREFERENCES", there are options for "Online" and "Paper". Under "ALERT PREFERENCES", there are options for "Email" (with a question mark icon) and "Text".
STATEMENTS: A dropdown menu is open, showing "HSA Account Summary" with a note "\$1.50 fee per printed summary" and "Automatically emailed based on whether or not you have an email address". To the right of this dropdown, there are checkboxes for "Available" (which is unchecked) and "Enabled" (which is checked). The "Not available" option is also present.
